Become a Validator

Become a Validator on Libre Chain.

Anyone can become a Libre validator to earn LIBRE for processing Libre chain transactions and putting those into blocks.

The first step is to get a node running on the Libre Testnet following the [guide here on Gitlab](#).

The Testnet [Telegram](#) and [Discord](#) are good places to begin as a validator and get support with setting up your node. Good vibes only please.

For information about Validator pay see [📄 Validators](#).
