A Stable AMM for Trading Coins of Equal Value

Abstract: This post introduces a simple whitepaper for a Stable
Automated Market Maker (AMM) designed to facilitate the trading of
coins that theoretically have the same value, using USDC and USDT a...

Libre Dex Preview

In a few weeks we will be releasing a product that we have been
working on since Bitcoin Miami (May 2023). We feel it represents the
first usable mass-market layer 2 trading platform for Bitcoin ordinals...

Libre vs Changelly

One of the great advantages of Libre is the complete removal of friction in trading BTC and USDT. Commonly, people typically hold their Bitcoin in a hardware wallet (Ledger) and their USDT in an ETH walle…

Libre vs Strike

Strike is a very popular mobile app that claims to be "Bitcoin" — but, the story that Jack Mallers tells is very different from the reality of what Strike is and how it works. Strike is a custodial system — it is a fronte...

The Killer App is... Money

The real "killer app" of crypto is, and always has been, money. This was true in 2008 when Bitcoin was created, and it is even more true today, with increased worldwide inflation and authoritarian governments. I...

Libre Decentralization: Wallets, Swap, Bridge

After writing yesterday's post about how decentralized Libre is — we thought it was important to also post about the decentralization and permissionless nature of Libre. This post is about the types of wallets…
